This survey of the FAA Examination process is in the interests of maintaining excellence in Astrological knowledge and practice through the attainment of appropriate certification.

I encourage everyone who has studied, practiced and/or taught astrology to give constructive feedback about the FAA examination system as it currently stands.

Keep in mind that the FAA Diploma of Astrology is the FAA's minimum qualification to practice astrology professionally. As the FAA Advanced Diploma of Astrology is a specialised process focussed on examining expertise in a particular field by a written thesis or other body of work it does not need to be considered in regards to the following questions.

The individual replies will be kept confidential, only the overall results of the survey will become public knowledge.

Where there are multiple answer you may tick more than one or add your own comment

Name:

Address:

State:

Postcode:

Email :

School:

Are you a ::

- Student
- Teacher
- Practitioner
- Researcher
- An interested party

Please list the qualifications that you have in Astrological and or supportive studies?

(If you are partway through gaining a diploma include completed modules)

As a teacher can we add your details to the Astrology Teachers Database? Yes / No

If you are part way through the Diploma modules do you intend to complete the process.?

Yes / No

If Yes when do you expect to complete the Diploma?

If No why not?

In the exams that you have read or sat for, did you find the questions easy to understand and relevant?

Do you believe that a national standard is necessary? Please explain?

What do you wish to gain or others to gain from the FAA Examination process?

Do you have a copy of the FAA exam book:

- hard copy
- digital
- or you know how to access it easily on the website

Do you understand the 4 Module structure and do you consider it to be a workable structure?

For what purpose have you referred to the syllabus in your study or teaching practice?

www.faainc.org.au

Does the syllabus reflect what you have been taught or are teaching?

Does the syllabus reflect what you believe to be relevant to the study of attaining a professional level of Astrology?

In what way do you encourage others to sit for an FAA Diploma?

In the syllabus what, if any, areas of the study of Astrology:

- are missing?
- are topics that seems outdated or superfluous?
- could be refined or added to in their definition?
- what would you add?
- any other comments

In your opinion are there any impediments in the overall exam structure that may inhibit students to sit for the Diploma?

What flaws have you experienced in the system?

Are there any changes to the individual exams that you would recommend?

- Calculation Exam

- Interpretation Exam

- Dynamic Exam

- Advanced Exam

Are there changes in the structure of the composition of the 4 modules structure that you would recommend.

In which of the 4 exams would you consider the composite/ synastry section best placed?

If there were to be radical changes to the system what would you recommend?

As a consulting Astrologer what do you consider to be the major areas of knowledge that you are required to use in your practice? List and explain as many as you like?

What skills do you consider the most necessary to be examined?

As students or teachers what are the topics that you struggle to find teachers for?

As a teacher of Astrology are there any areas that you would consider yourself qualified to be a specialist examiner for?

How can the FAA Associations be supportive of the FAA Exam Board? How can the relationship between these bodies of the FAA organisation improve?

Please comment on anything that is not covered in the previous questions and you feel would be of benefit to the examination process for Astrology.
